## **DETAILED ACTION**

### ***Response to Amendment***

1. Upon the amendment filed on 09/09/2010, Claims 8 and 14 are amended and Claims 1-7, 13, 21, 23, 24, 27 are cancelled. The currently pending and allowed claims are Claims 8-12, 14-20, 22, 25, 26, 28-30. It is noted that the after-final response included the amendment of the allowable subject matter of claims 24 and 27 into independent claims 1 and 14 thus placing the claims in condition for allowance.

### **STATEMENT OF REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

Wakiya et al., Soken, Mitsubishi, Travis et al., Yamada et al. and Anderson et al. disclose particles that are coated with an insulating resin layer. However, none of the prior art of record including Wakiya et al., Soken, Mitsubishi, Travis et al., Yamada et al. and Anderson et al. provides sufficient suggestion or motivation to a conductive particle that includes a resin layer that is surface-treated with aziridine and that contains carboxyl groups in the amount of about 0.1 to about 50 mg KOH/g as required in the present claims. Furthermore, the process of making the claimed chain is different from the synthesis of the prior arts thus resulting properties would not be inherent. Accordingly, the claimed invention, as a whole, would not have been obvious to one of ordinary skill in the chemical engineering art. None of the prior art of record teaches, discloses or suggests a conductive particles coated with an insulated resin layer that has the features of a specific loading carboxyl group and the aziridine treatment in the manner as those recited the present claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
